SKILLS

- **Languages:** C++, JavaScript, C, Python
- **Frameworks:** React.js, Node.js, Express.js, REST API, MERN Stack
- **Tools/Platforms:** MongoDB, MySQL, Git, GitHub, Postman, VS Code, XAMPP
- **Soft Skills:** Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Eduboard - Virtual Whiteboard | [Live link](#)

Dec 2025

- Developed a collaborative virtual whiteboard that allows teachers to create boards and students to draw, write and interact in real time, enhancing engagement and collaboration during online classes
- Implemented role-based authentication and real-time synchronization to ensure secure access and smooth collaboration
- Reduced drawing latency by ~25% by optimizing socket event handling, refining backend logic, and improving real - time data synchronization to ensure smooth collaboration across devices

Tech: React.js, Node.js, MongoDB, JWT, Socket.io

Lifestyle - E – Commerce Clothing website | [GitHub](#)

Apr 2025

- Built a responsive clothing website with product browsing, category filters, search functionality, and cart management, providing users with an intuitive and seamless online shopping experience
- Implemented secure login and registration, streamlined checkout, and an admin panel for easy product and order management
- Improved frontend - backend efficiency and overall UI responsiveness by ~20% through optimized PHP-MySQL integration and cleaner JavaScript logic

Tech: HTML, CSS, JavaScript, PHP, MySQL

Serenity – Health & Medicine Tracking Chatbot | [GitHub](#)

Feb 2025

- Created a smart health-assistant chatbot tailored for senior citizens, enabling easy tracking of daily medicines, health routines, and doctor-prescribed treatments through a simple interface
- Integrated Google Authentication along with automated medicine reminders and emergency alert features, ensuring secure users access while helping senior user manage daily medications reliably
- Improved reminder reliability by ~ 30% by refining scheduling logic, optimizing API-based notifications, and ensuring timely delivery of medicine reminders for senior users

Tech: HTML, CSS, JavaScript, Google Authentication, APIs

TRAINING

CSE Pathshal (Edtech company) | [Certificate](#)

June 2025

DSA with C++

- Trained extensively in Data Structures & Algorithms (DSA) using C++, with strong focus on problem-solving, time and space complexity, and implementation of key algorithms
- Developed strong analytical skills to analyze, optimize, and debug code effectively, improving overall coding efficiency, logical reasoning, and ability to write clean, optimized solutions
- Gained hands-on experience in project development by applying DSA concepts to build structured, scalable and functional mini-projects, reinforcing real-world problem solving and algorithmic thinking

CERTIFICATES

- Cloud Computing | [NPTEL](#) Apr 2025
- Introduction to Hardware and Operating System | [Coursera](#) Sep 2024
- The Bits and Bytes of Networking | [Coursera](#) Sep 2024
- CipherThon Hackathon | [CipherSchools](#) Feb 2024

EDUCATION

Lovely Professional University

Punjab, India

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.08**

Aug 2023 - Present

Meerut Public Girls' School

Shastri Nagar, Meerut

Intermediate; **Percentage: 94.6**

Apr 2020 – Mar 2021

Meerut Public Girls' School

Shastri Nagar, Meerut

Matriculation; **Percentage: 90**

Apr 2018 – Mar 2019
